# *Listing & Authorisation*

***Nickel in surface treatment – Status of Substitution***

***Brussels, Crown Plaza Le Palace***
***February 22, 2012 (9:00-16:30)***

9:00-9:15: Introduction – aims of the project and of the workshop (France Capon, Nickel Institute)

9:15-10:30: Background and objectives (Jens Torslov, DHI and Per Möller, DTU)

a. *Background and objectives of the study*
b. *What is an alternative?*
c. *How do we evaluate an alternative?*
d. *Discussion*

***10:30-11:00: Coffee* break**

11:00-12:15: Methodology and outcome of the Aerospace industry (Jens Torslov, DHI and Per Möller, DTU)

a. *Methodology and scope of the project*
b. *Aerospace,*
    i. *observations from survey of alternatives*
    ii. *assessment of alternatives*
c. *Discussion of results*

**12:15-13:15: lunch break**

13:15-14:00: Automotive industry (Jens Torslov, DHI and Per Möller, DTU)

i. *observations from survey of alternatives*
ii. *assessment of alternatives*
iii. *Discussion*

14:00-14:45: Decorative plating (Jens Torslov, DHI and Per Möller, DTU)

i. *observations from survey of alternatives*
ii. *assessment of alternatives*
iii. *Discussion*

**14:45-15:00: Coffee break**

15:00-15:30: Identification of data gaps and suggested way forward to fill in these data gaps (France Capon, Nickel Institute and ALL)

15:30-16:00: Exchange of experience with the Co industry (TBC)

16:00-16:30: Conclusions and next steps (France Capon, Nickel Institute)
